

EQUIPMENT LIST

GRAIN FLOW

Used to demonstrate the danger of playing or being in a grain bin and gravity flow wagon. It shows how quickly one is pulled into the grain mass and can be suffocated when the wagon is unloading.

GRAIN PULL

Used to show how quickly grain drowning can occur and how much strength it would take to pull someone from a grain pile.

AUGER DISPLAY

Shows how an auger functions and illustrates hazards common to these conveyors. May be used to discuss safety signs and machine guarding.

SMV POSTER

Shows the proper use and reflectivity of Slow Moving Vehicle Emblem (SMV's). Can also lead into discussion about equipment marking and lighting requirements.

MASS/MOMENTUM DISPLAY

This display shows how large and small objects react when dropped from various heights. This can be used while discussing animal safety and/or injuries from falls.

CLOTHING SAFETY DISPLAY

Shows the need for wearing the proper clothing when handling chemicals and necessary laundry techniques. Contact your local pesticide training program for a clothing kit.

FOOD SAFETY DISPLAY

Shows the need for washing hands and performing other sanitary measures before handling or eating food. Posters come with display.

TRACTOR TIPPING

Shows how and why tractors tip, such as improper hitching or driving on a steep slope. It can also be used to show why it is dangerous to have an extra rider on the tractor.

PTO MODEL

Shows how a PTO driveline functions and illustrates safety features and signs. Used to discuss the hazards of machine drivelines. Posters come with the model.

SUN SAFETY

Shows the need for protecting the skin from UV radiation exposure from the sun. Can be used to discuss proper selection of sunscreen products and hats. Posters come with display.

HYPO/HYPERTHERMIA – WEATHER SAFETY POSTERS

Shows how a person's body reacts to cold exposure and heat stress. Optional ice-water demonstration illustrates the rate of heat lost from an arm.

BICYCLE/SKATE BOARD/ROLLERBLADE SAFETY

Shows proper use of protective equipment such as helmets, gloves, and pads. Illustrates the dangers of head injuries and includes posters.

TOBACCO

Presents a 10 question quiz showing why youth should not start smoking. Posters come with quiz.

The following are LARGE ITEMS and will not fit into a compact car

MACHINERY SAFETY (CRANK IT)

Shows common machinery hazards such as belt/pulley drives, chain/sprocket drives, pinch points, etc. Also illustrates the need for shields. Posters come with display.

MODEL FARM

Has 20 plus unsafe situations that the viewers are asked to identify and explain why they could result in a serious accident. AKA 'Hidden Hazards'. Posters come with display.

WHEEL OF MISFORTUNE/REACTION TIMER

Shows machinery accident situations and how fast they occur. Reaction timer shows a person's reaction time, which is compared to the accident situation to show how a person can NOT react fast enough to prevent most accidents.

PROMOTIONAL AND EDUCATION MATERIAL

SOFY DISPLAY BOARD

Camp pictures can be displayed to promote farm safety camps in your community. Can be used at farm shows or in a conspicuous public location.

Both of the following videos can be used prior to the camps for promotional purposes to create interest and understanding of the camps. They would be a good tool to use at civic groups and other events to help get local sponsors for the camps as well as camp participants and volunteer instructors.

FARM SAFETY, FAMILY STYLE VIDEO

FARM SAFETY GOES TO CAMP VIDEO (camp promotion)
